Oier Ia: "Sin Título" ("Untitled")

Oier Iruretagoiena, both as Oier I.A. and previously as "Tüsüri", has released several records and has composed pieces for dance, theatre, radio, video, installations and poetry recitals.

Coordination: Audiolab

Arteleku. At 19.00 hours, 24 February 2011

Oier Ia has recently produced the sound track for "Red River / Rio Tinto", the audiovisual work by Nadia Barkate and Marion Cruza, and performed the "Hotsune enea ene! ene! unea hotsunene?" and "Tiempo de dar" installation-concerts, in conjunction with Loty Negarti.

In "**Sin título**" (ixi label, 2010), it continues with the minimalist line of earlier works, by creating a long piece that is very simple in terms of composition, but with very complex tonal quality. The presentation will feature a recital of the piece and a question and answer session where the audience can ask the author about the composition or his work method.
