

# ASIER PEREZ GONZALEZ & CONSONNI S.L.

**Asier Pérez González & consonni S.L.** has been set up to provide high-quality innovative artistic activities and meeting points in Bilbao, where –despite the city's new image as a services and culture centre– the arts and leisure scene remains uninteresting and often lacks content.

**Asier Pérez González & consonni S.L.** is being launched with the same goals as those held by the institutions responsible for revitalising Bilbao, whose stated aim is to transform the city into a "modern services metropolis repositioning itself in an optimum position for the 21st century"; in other words, an "open, pluralistic, integrating, modern, creative, social and cultural" city.

Through a range of different events, **Asier Pérez González & consonni S.L.** plans to create festive venues for meeting and debate to promulgate creativity, exchange and fun. Its most popular activity is the Salón BIO.KO: a night of concerts, videojockeys, DJs, etc. held once a month in a Bilbao discotheque. Other public events will include publications, conferences, musical and audio-visual productions to encourage creativity and develop criticism.

In the short term, **Asier Pérez González & consonni S.L.** seeks to organise a round-table discussion with representatives of art and culture from all the political parties standing for election to Bilbao City Council in the forthcoming municipal elections in June 1999.
